Noy hangs out (dirty) laundry of GMA anomalies

By [illegible]

IT WAS a surprising step
apparently, given that
GMA is a state-owned
media outlet.

In the traditional, President
Aquino's primary
focus is a laundry list of
achievements that allegedly
demonstrate his prowess as
leader from government offices in
the Aquino administration.

In his first State of the
Nation Address, Mr. Aquino
highlighted issues of social justice,
growth, and the importance
of education. He also
highlighted the importance
of the private sector in
the country's growth and
development.

"This report is merely a
snapshot of my objectives,"
the President said. "It is
not the entire picture of
my work."

By [illegible]

PREZ AQUINO "has 100
days again," President
Aquino's primary
focus is a laundry list of
achievements that allegedly
demonstrate his prowess as
leader from government offices in
the Aquino administration.

In his first State of the
Nation Address (Sona)
delivered in a straight-up
fashion, Mr. Aquino
highlighted the
"meaning" of his
office and his
responsibilities as
President.

Voters can get on list again

PHILADELPHIA (AP) — The state's election officials say they are looking for voters who have been removed from the voter list. The officials are asking voters to contact their local election office to get back on the list. The officials are also asking voters to provide proof of their residency. The officials are offering a reward of \$5,000 for information that leads to the voter's removal from the list.

Maalab na pagbati sa ika-96 taong
Anibersaryo ng pagkakatatag ng
Iglesia ni Cristo

Tunay na nakarating na ang Iglesia ni Cristo sa tugatog ng tugumpay mula nang ito'y magsimula noong Hulyo 23, 1914. Napakalaki ng naging umbug ng Iglesia ni Cristo sa aming lalawigan, maging sa ating bansa. Hindi lamang sa aspetong panrelihiyon, kundi maging sa pagtulong din sa lahat ng nangungailangan.

Kaya naman, sa araw na ito ay muling nagpupugay ang inyong lingkod kasama ang aking buong pamilya at mga kababayan sa lalawigan ng Cavite.

Mabuhay po ang kapatiran ng Iglesia ni Cristo!

Should we chop the pork?

Mr. Frank L. Jones

2000 2001

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$.

2. In the second part, the author considers the problem of the representation of a function $f(x)$ as a sum of two functions $g(x)$ and $h(x)$ such that $g(x)$ is a continuous function and $h(x)$ is a function of bounded variation. It is shown that such a representation is possible if and only if $f(x)$ is a function of bounded variation.

3. The third part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$.

4. In the fourth part, the author considers the problem of the representation of a function $f(x)$ as a sum of two functions $g(x)$ and $h(x)$ such that $g(x)$ is a continuous function and $h(x)$ is a function of bounded variation. It is shown that such a representation is possible if and only if $f(x)$ is a function of bounded variation.

5. The fifth part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$.

6. In the sixth part, the author considers the problem of the representation of a function $f(x)$ as a sum of two functions $g(x)$ and $h(x)$ such that $g(x)$ is a continuous function and $h(x)$ is a function of bounded variation. It is shown that such a representation is possible if and only if $f(x)$ is a function of bounded variation.

7. The seventh part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$.

8. In the eighth part, the author considers the problem of the representation of a function $f(x)$ as a sum of two functions $g(x)$ and $h(x)$ such that $g(x)$ is a continuous function and $h(x)$ is a function of bounded variation. It is shown that such a representation is possible if and only if $f(x)$ is a function of bounded variation.

9. The ninth part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$.

10. In the tenth part, the author considers the problem of the representation of a function $f(x)$ as a sum of two functions $g(x)$ and $h(x)$ such that $g(x)$ is a continuous function and $h(x)$ is a function of bounded variation. It is shown that such a representation is possible if and only if $f(x)$ is a function of bounded variation.

Looking for one

Time 3,000

June 1969

Figure 1 is a 3D surface plot. The x-axis represents the number of days between the first and second seizures, ranging from 0 to 100. The y-axis represents the number of seizures per year, ranging from 0 to 10. The z-axis represents the probability of a third seizure, ranging from 0 to 1. The surface shows that the probability of a third seizure is highest when the number of seizures per year is high and the interval between the first two seizures is short. The probability decreases as the interval between seizures increases and as the number of seizures per year decreases.

Unson grabs Optimist Int'l jr golf lead SSC Stags pace NCAA chess

By John Martinez
 There is no more time during the Optimist International Junior Golf Championships in San Jose, Calif., for the top players to rest. The competition is so intense that the players are still in the hole-in-one contest.

Unson, 15, of the Philippines, leads the tournament with a score of 10 under par. He is followed by Lee, 14, of the United States, and Kim, 14, of South Korea.

The tournament is the largest of its kind in the world, with over 1,000 players from more than 100 countries. It is a great opportunity for young players to compete at the highest level.

By Gail Murphy
 The SSC Stags are the pace setters in the NCAA chess tournament. They have won the championship for the last three years.

The Stags are a team of students from the San Francisco State University. They are coached by a former national champion.

The team is made up of students from all over the country. They are a very competitive team and are always looking for ways to improve.

By David S. Taylor
 The Lady Tarns whip the Lady Falcons, gain share of 4th. The Lady Tarns are a team of students from the University of California, Berkeley. They are coached by a former national champion.
